

Showdown Rates 2016-2017

If you can't get the 15 people needed to qualify for a group discount, you have two choices. You can just come as regular people, and pay full price individually at the ticket office or rental shop...or, if you want to pay in one big transaction, you can fill out the "Full Price" registration form and go through all of the steps as though you are a group. Since you don't have 15 people, you won't get a discount, and your coordinator won't get a complimentary lift, but at least you are saved the hassle of paying individually. This works great for Corporate Field Trips, Colleges, or Continuing Education programs that want to pay for everything with a single purchase order.
